

[in] as a continuation to the outer [peripheral surface]
periphery of said [casing] main body unit.

AI
Cade
--12. (Amended) The electronic equipment according
to claim 1 [wherein] further comprising a window [through
which the memory member may be checked] formed in said
memory holder for visually [as to possible] checking
a presence of the memory member held in said memory
holder [is provided in said memory holder].--

REMARKS

Claims 1-12 remain in the application and have been
amended hereby.

As will be noted from the Declaration, Applicants
are citizens and residents of Japan and this application
originated there.

Accordingly, the amendments made to the
specification are provided to place the application in
idiomatic English, and the claims are amended to place
them in better condition for examination.
